### Company History

In November 1989 the firm was conceptually primed to develop customized software.

June 6, 1990 business activity started under the name “Ingenieurbüro für Computeranwendungen (ICA) in Birkenwerder.

In the year 1991 the business activities were extended by also selling hardware and providing support.

In 1992 the technical division was expanded with network and copy technologies.

The selling of CAD products started in 1993.

1994 the company and its accomplishments were presented at numerous regional exhibitions for the first time. The highlight was the presentation of CAD products at the CeBit in Hanover in 1995.

The restructuring of the firm took place in 1996 and 1997. The divisions CAD and software development were ceased due to a lack of demand for special software and customized programming.

In 1997 the premises were extended. Focussing on the division Telephony followed.

1998 the company ICA - Dr. Uhlig became an apprenticing company accredited by the German Chamber of Commerce and Industry.

The Internet became a new division in 1999 and merged with the division Network. Based on solutions which have their fundament in Microsoft and Novell operating systems the Open Source System Linux is often applied.

After the millenium the internet activity was extended. The following services can be provided:

Webdesign, webhosting and internet connection

In 2001 the company took over the reconstruction and supervision of the “Citynet Oranienburg”. Ever since this network has been operated based on an agreement with the Stadtwerke Oranienburg GmbH.

In the year 2002 ICA – Dr. Uhlig received the authorisation to bear the seal of approval – Deutsche Telekom Leistung -.

The highlight of the 1<sup>st</sup> Security Day in Oranienburg, 2003 was the broadcast of the local TV Station – OHV TV – via online video streaming.

Since 2005 ICA – Dr. Uhlig is a member of the ISP – Service e.G. Here it is possible to work with different internet bodies (e.g. DeNIC, eco, RIPE) and to offer different services nationwide.

In 2006 Pre-WIMAX testing measurements have been realised in the district of Oberhavel. An application for a WIMAX license followed as a result. After the CeBit a partnership with Wick Hill Communicationstechniques GmbH has been established.

### **Company Presentation**

The company is an individual enterprise by Dr. Uhlig (see “Who is Who – Germany”, Verlag für Personenzyklopädien AG, Supplementwerk, 6<sup>th</sup> issue 1999, page 3036)

The key activities are as follows. Aside these activities there is the family owned shop in Birkenwerder belonging to ICA – Dr- Uhlig.

Our offices and the shop are located in Birkenwerder, across from the City Hall, directly off the main roads 96 and 96a. Our customer can reach us easily from nearly anywhere around Berlin thanks to the gateway “Birkenwerder” off the interstate A10.
